## Forward-Looking Statements

This Current Report on Form 8-K contains forward-looking statements. Any statements about our expectations, beliefs, plans, predictions, forecasts, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. You can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "could," "may," "will," "should," "seeks," "likely," "intends," "plans," "pro forma," "projects," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods that may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: business and economic conditions generally and in the bank and non-bank financial services industries, nationally and within our local market areas; our ability to mitigate our risk exposures; our ability to maintain our historical earnings trends; risks related to the integration of acquired businesses (including our acquisitions of First Bancorp of Durango, Inc., Southern Colorado Corp., and the operating assets of Interstate Capital Corporation and certain of its affiliates) and any future acquisitions; changes in management personnel; interest rate risk; concentration of our factoring services in the transportation industry; credit risk associated with our loan portfolio; lack of seasoning in our loan portfolio; deteriorating asset quality and higher loan charge-offs; time and effort necessary to resolve nonperforming assets; inaccuracy of the assumptions and estimates we make in establishing reserves for probable loan losses and other estimates; lack of liquidity; fluctuations in the fair value and liquidity of the securities we hold for sale; impairment of investment securities, goodwill, other intangible assets, or deferred tax assets; our risk management strategies; environmental liability associated with our lending activities; increased competition in the bank and non-bank financial services industries, nationally, regionally, or locally, which may adversely affect pricing and terms; the accuracy of our financial statements and related disclosures; material weaknesses in our internal control over financial reporting; system failures or failures to prevent breaches of our network security; the institution and outcome of litigation and other legal proceedings against us or to which we become subject; changes in carry-forwards of net operating losses; changes in federal tax law or policy; the impact of recent and future legislative and regulatory changes, including changes in banking, securities, and tax laws and regulations, such as the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") and their application by our regulators; governmental monetary and fiscal policies; changes in the scope and cost of the Federal Deposit Insurance Corporation insurance and other coverages; failure to receive regulatory approval for future acquisitions; and increases in our capital requirements.

While forward-looking statements reflect our good-faith beliefs, they are not guarantees of future performance. All forward-looking statements are necessarily only estimates of future results. Accordingly, actual results may differ materially from those expressed in or contemplated by the particular forward-looking statement, and, therefore, you are cautioned not to place undue reliance on such statements. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events or circumstances, except as required by applicable law. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" and the forward-looking statement disclosure contained in Triumph's Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 12, 2019.

1) Triumph uses certain non-GAAP financial measures to provide meaningful supplemental information regarding Triumph's operational performance and to enhance investors' overall understanding of such financial performance. The non-GAAP measures used by Triumph include the following:

- "Adjusted diluted earnings per common share" is defined as adjusted net income available to common stockholders divided by adjusted weighted average diluted common shares outstanding. Excluded from net income available to common stockholders are material gains and expenses related to merger and acquisition-related activities, including divestitures, net of tax. In our judgment, the adjustments made to net income available to common stockholders allow management and investors to better assess our performance in relation to our core net income by removing the volatility associated with certain acquisition-related items and other discrete items that are unrelated to our core business. Weighted average diluted common shares outstanding are adjusted as a result of changes in their dilutive properties given the gain and expense adjustments described herein.
- "Tangible common stockholders' equity" is defined as common stockholders' equity less goodwill and other intangible assets.
- "Total tangible assets" is defined as total assets less goodwill and other intangible assets.
- "Tangible book value per share" is defined as tangible common stockholders' equity divided by total common shares outstanding. This measure is important to investors interested in changes from period-to-period in book value per share exclusive of changes in intangible assets.
- "Tangible common stockholders' equity ratio" is defined as the ratio of tangible common stockholders' equity divided by total tangible assets. We believe that this measure is important to many investors in the marketplace who are interested in relative changes from period-to period in common equity and total assets, each exclusive of changes in intangible assets.
- "Return on Average Tangible Common Equity" is defined as net income available to common stockholders divided by average tangible common stockholders' equity.
- "Adjusted efficiency ratio" is defined as non-interest expenses divided by our operating revenue, which is equal to net interest income plus non-interest income. Also excluded are material gains and expenses related to merger and acquisition-related activities, including divestitures. In our judgment, the adjustments made to operating revenue and non-interest expense allow management and investors to better assess our performance in relation to our core operating revenue by removing the volatility associated with certain acquisition-related items and other discrete items that are unrelated to our core business.
- "Adjusted net non-interest expense to average total assets" is defined as non-interest expenses net of non-interest income divided by total average assets. Excluded are material gains and expenses related to merger and acquisition-related activities, including divestitures. This metric is used by our management to better assess our operating efficiency.

2) Performance ratios include discount accretion on purchased loans for the periods presented as follows:

3) Asset quality ratios exclude loans held for sale, except for non-performing assets to total assets.
4) Current quarter ratios are preliminary.

## FACTORING 101

## TRIUMPH BUSINESS CAPITAL ECONOMICS:*

1. Our client performs services for the account debtor.
2. The client generates an invoice for $\$ 1,000$ payable in 30 days.
3. The client sells the invoice to Triumph (factor), who pays the client $\$ 900$ ( $\$ 1,000$ less a $10 \%$ cash reserve or "holdback").
4. Triumph employs $\$ 900$ offunds to acquire the invoice. We charge a $2.5 \%$ discountfee ( $\$ 25$ ), which reflects a $\sim 2.8 \%$ yield on the actual funds employed. Assuming a similarly sized invoice, with the client, was collected ("turned") every 36 days (or $\sim 10$ times per year) Triumph's annualized yield on the $\$ 900$ of Net Funds Employed is $\sim 28 \%$ ( $\$ 25$ fee * 10 purchases annually/ $\$ 900$ ).
5. When the invoice is collected, the $10 \%$ holdbackless our fee is paid to the client.

## WHAT IS FACTORING?

" Factoring is one of the oldest forms of finance.

- Factoring is a financial transaction in which a business sells its accounts receivable to a third party (factor) at a discount. A businesstypically factors its receivable assets to meet its present and immediate cash needs. The transaction is a purchase of an invoice, not a loan.

## WHAT IS THE MARKET?

- Factoring industry data is limited. Based on IFA* studies and discussions with industry experts, we estimate the market, excluding traditional factoring (textiles, furniture, etc.), at $\sim \$ 120 \mathrm{~B}$ in annual purchases.
- Given these estimates, we assume transportation factoring is 45-50\% of that market or approximately $\$ 60 \mathrm{~B}$.
. We represent $\sim 5 \%$ of the total market and $\sim 10 \%$ of the transportation market
- We are among the 3 largest discount transportation factors and in the top 10 overall of discountfactors.

## WHO ARE OUR CLIENTS?

* Our typical client has limited financial systems
- We can factor clients with historical losses, little (if any) net worth, early stage (less than 3 years activity) businesses, turnarounds and restructurings.

## WHO IS TRIUMPH BUSINESS CAPITAL?

- We are a highly specialized factor in the transportation space factoring 3 groups of clients:
- Recourse trucking

Non-recourse trucking (owner/operators)
Freight brokers

- Other industry verticals
- Similar collateral and portfolio servicing characteristics (staffing, warehousing, etc.)

## TRIUMPHPAY 101

## WHAT IS TRIUMPHPAY?

TriumphPay is a reverse factoring product that connects our proprietary payment processing systemwith a broker or third party logistics' (3PL) transportation management and accounting system to facilitate payments to carriers, provide improved liquidity options to clients, and generate enhanced revenue opportunities for both TBK and the client through QuickPay programs.

## WHAT IS THE MARKET?

Based on our analysis of the third party logistics/broker portion of the for-hire trucking market, we estimate the market to be $\sim \$ 170$ billion.

## WHO IS THE CUSTOMER?

Large and mid-sized freight brokers and 3PL firms who are suffering from factor fatigue, desire enhanced liquidity options and expanded revenue opportunities.

## TRIUMPHPAY ECONOMICS:*

1. Client approves invoice for $\$ 2,000$. Payment terms are 35 days.
2. Carrier opts for QuickPay. Triumph pays the carrier $\$ 1,960$ same day or next day. The $\$ 40$ difference represents the QuickPay fee. In this example arrangement, that fee is then split between the broker and Triumph, $\$ 20$ each.
3. At day 35 , Triumph drafts $\$ 2,000$ from the broker.
4. The $\$ 20$ fee retained by Triumph equates to an annualized yield of $9.6 \%$
